

Open Day Tutor Meetings Programme – Friday 16th September 2022

We are hosting subject meetings to give prospective applicants a chance to meet a number of Univ's subject tutors. Please note that teachers, parents and carers are **not** able to attend tutor meeting sessions.

We have four tutor meeting sessions running at fixed times here at the College.

Please note you will be able to attend the talks after the fixed start times – please just ask our student helpers at the Welcome desk to guide you to the session.

The format of our Meet the Tutors Sessions are as follows:

- Introductions to studying the subject groups at Univ
- General admissions panel Q&A with subject Tutors
- Informal individual questions with subject tutors (last 30 minutes of session)

If you are not sure which subject you want to apply for, or you are planning to apply for a Joint Honours course, you are welcome to visit any of the tutor meetings sessions we have on offer. The last 30 minutes of each session will be reserved for informal individual questions, where you would be welcome to visit other concurrent sessions.

Subject Group	Timings	Subjects and Tutors
